Ben Sproat

University Park, PA

(301) 751-2668 | ben.c.sproat@gmail.com | bensproat.com | linkedin.com/in/bensproat | github.com/beansprout21

Available for Summer 2027 internships and projects.

EDUCATION

The Pennsylvania State University, Schreyer Honors College, *B.S. Engineering (major to be declared)* | University Park, PA — Expected May 2030

- College of Engineering merit scholarship

Poolesville High School, Global Ecology Magnet Program, *GPA 4.0 (unweighted)* | Poolesville, MD — June 2026

- AP Scholar with Distinction (2025, 2026)

VENTURES AND AI PRODUCTS

Sprout, HackPSU Fall 2026 FNB Challenge winner, *Product and Technical Lead* | getsprout.tech — Oct 2026

- Won the FNB Challenge at HackPSU (353 participants, 122 projects across all tracks) with a money coach that builds a plan from a student's values and hands it to a banker
- Owned everything except the front-end design: product, a tested plan engine, guards that block AI-made numbers, and Auth0 banker roles (Next.js, Claude)
- Shipped in 24 hours with a lead Claude chat directing up to 4 Claude Code agents through GitHub; an overnight loop tested 3,084 generated users and took failing checks from 3 to 0

Priming Labs LLC, *Technical Co-Founder* | priminglabs.com — Jun 2026 – Present

- Co-founded a training-readiness app for coaches and sport-performance PTs with Dr. Jessica Visintainer, PT, DPT; lead all technical work
- Built the web app (check-ins, timed cognitive tests, scoring engine): 57 server functions, 151 automated tests (TanStack Start, React 19)
- Built the iOS app in Capacitor with Apple Health import (sleep, HRV, workouts), shipped to TestFlight through Codemagic

Sproat Systems, *Founder, AI Consulting and Automation* | sproatsystems.com — 2025 – Present

- AI consulting for healthcare practices and small businesses: find where AI fits, then build custom AI systems and solutions
- Clients: Canyon Kids (my family's practice; I set up its sensory gym as a volunteer in 2023), Kentuckiana Mobile Therapy, Mobility Health PT, Hydes Group, Cloud Surfing Media
- Built GoHighLevel CRMs, an 85+ field intake system and a seller-lead pipeline; teach every client to use AI

ENGINEERING EXPERIENCE

Floating sunglasses attachment, *Team Lead and Lead Designer (4-person team)* | PLTW capstone — 2025 – 2026

- Led a full-year design cycle for a slide-on attachment that keeps sunglasses afloat when dropped in water
- Built 3 prototypes in 6 weeks from Fusion 360 models (TPU printing, Silpoxy bonding): 312 s mean float vs. 300 s target; 3 of 3 drop tests passed

SETTY, *Engineering Intern* | Washington, DC — Jun 2024 (3 weeks)

- Modeled energy efficiency of 10+ California homes in EnergyPro 9 against state energy code

Medical Center Orthotics and Prosthetics, *Intern* | Silver Spring, MD — Jun 2025 (1 week)

- Observed and assisted in fabricating prosthetic and orthotic devices, including a power knee

LEADERSHIP

Bretton Woods Recreation Center, *Counselor, then Lead Counselor* | Maryland — Summers 2022 – 2026

- Led staff training and adventure groups of up to 20 kids

Poolesville High School, *Founding member and captain, first varsity pickleball team* | Poolesville, MD — 2024 – 2026

- Team MVP (2024); NTHS Marketing and Communications Director; led a 700-pencil-case supply drive for a school in Lukaya, Uganda

SKILLS

Software and AI: TypeScript, React, Next.js, Claude API, AI coding agents, Auth0, Supabase, SQL, Python, Git, Linux

Design and fabrication: Fusion 360, Onshape, FDM 3D printing (TPU, PETG-CF), shop tools, EnergyPro 9

Business: AI consulting, sales and client management, GoHighLevel, WordPress, Search Console, Stripe
