Ben Sproat

University Park, PA

(301) 751-2668 | ben.c.sproat@gmail.com | bensproat.com | linkedin.com/in/bensproat | github.com/beansprout21

Available for Summer 2027 internships and projects.

EDUCATION

The Pennsylvania State University, Schreyer Honors College, *B.S. Engineering (major to be declared)* | University Park, PA — Expected May 2030

- College of Engineering merit scholarship

Poolesville High School, Global Ecology Magnet Program, *GPA 4.0 (unweighted)* | Poolesville, MD — June 2026

- AP Scholar with Distinction (2025, 2026)

VENTURES

Priming Labs LLC, *Technical Co-Founder* | priminglabs.com — Jun 2026 – Present

- Co-founded a training-readiness app for coaches and sport-performance PTs with Dr. Jessica Visintainer, PT, DPT; lead product and all technical work
- Formed the Maryland LLC (Jul 2026), EIN, D-U-N-S and Apple Developer enrollment; completed Happy Valley LaunchBox Idea TestLab
- Built the web app (57 server functions, 151 tests) and the iOS app with Apple Health import, in TestFlight

Sproat Systems, *Founder, AI Consulting and Automation* | sproatsystems.com — 2025 – Present

- Run an AI consulting and automation practice: find where AI fits for healthcare practices and small businesses, then build custom AI systems and solutions
- Clients: Canyon Kids (my family's practice, first client), Kentuckiana Mobile Therapy, Mobility Health PT, Hydes Group, Cloud Surfing Media
- Own the full sales cycle, from cold outreach and discovery calls through close, onboarding and Stripe billing
- Built the systems clients run on: GoHighLevel CRMs, an 85+ field intake system, and a WordPress site with 7 SEO articles

Sprout, HackPSU Fall 2026 FNB Challenge winner, *Product and Technical Lead* | getsprout.tech — Oct 2026

- Won the FNB Challenge at HackPSU (353 participants, 122 projects across all tracks) with a money coach that builds a plan from a student's values and hands it to a banker
- Owned everything except the front-end design: product, a tested plan engine, guards that block AI-made numbers, and Auth0 banker roles (Next.js, Claude)
- Shipped in 24 hours with a lead Claude chat directing up to 4 Claude Code agents through GitHub; an overnight loop tested 3,084 generated users and took failing checks from 3 to 0

SYSTEMS AND ENGINEERING

AI data systems, *Designer and Builder* | Sproat Systems and personal — 2026 – Present

- Lead Forge AI: Google Places and Apify discovery, GPT-4o-mini scoring, NeverBounce verification on Supabase
- Acquisition sourcing pipeline: 29,245 Google Maps queries screened on SBA 7(a) default data; 590 verified owner contacts
- Hermes: always-on encrypted Ubuntu server running a local 20B LLM, Whisper lecture transcription and email triage

Floating sunglasses attachment, *Team Lead and Lead Designer (4-person team)* | PLTW capstone — 2025 – 2026

- Led a 4-person team through 3 prototypes in 6 weeks (Fusion 360, TPU printing): 312 s mean float vs. a 300 s target; 3 of 3 drop tests passed

EXPERIENCE AND LEADERSHIP

SETTY, *Engineering Intern* | Washington, DC — Summer 2024

- Modeled energy efficiency of 10+ California homes in EnergyPro 9 against state energy code

Medical Center Orthotics and Prosthetics, *Intern* | Silver Spring, MD — Summer 2025

- Observed and assisted in fabricating prosthetic and orthotic devices, including a power knee

Bretton Woods Recreation Center, *Counselor, then Lead Counselor* | Maryland — Summers 2022 – 2026

- Led staff training and adventure groups of up to 20 kids

Poolesville High School, *Founding member and captain, first varsity pickleball team* | Poolesville, MD — 2024 – 2026

- Team MVP (2024); NTHS Marketing and Communications Director; led a 700-pencil-case supply drive for a school in Lukaya, Uganda

SKILLS

Business: AI consulting, sales and client management, cold outreach, CRM design, company formation
